## MESSAGE FROM THE PRESIDENT

The Korea Anti-Doping Agency (KADA) has been actively proceeding with anti-doping activities within Korea and abroad in order to protect Athletes from doping and to promote fair competition and spirit of sports. We would like to express our sincere gratitude to the Korean Sports & Olympic Committee (KSOC), the Korea Paralympic Committee (KPC) with national sporting organizations, and professional sports organizations for their strong cooperation and standing together for the integrity of sports.

In 2017, KADA accomplished a considerable amount of achievements.

As a national anti-doping organization representing Korea, which is a member of WADA Foundation Board, the agency successfully supported the Korea Ministry of Culture, Sports and Tourism holding the WADA Executive Committee and Foundation Board Meetings in Seoul, 15-16 November, 2017.

Also, in the lead-up to the PyeongChang 2018 Olympic Winter Games, KADA participated at the IOC/WADA PyeongChang 2018 Anti-Doping Taskforce to ensure the best practice of the doping control program in the Games and pledged strong support and cooperation. By conducting doping controls in a number of diverse winter sports test events, KADA took its ability to a higher level.

Above this, KADA has been striving to improve the professionalism of doping control by complying with the World Anti-Doping Code and the International Standards, as well as continuing to keep up with the policies of WADA. Moreover, KADA launched the mobile anti-doping application service so that the Athletes and the Athlete support personnel have the opportunity to browse through a comprehensive list of prohibited substances anytime and anywhere, along with developing an anti-doping education curriculum by each target group and subject in order to conduct the face-to-face online anti-doping education.

KADA will keep moving forward to ensure the clean sport and clean Athletes. For this, we will maintain the close partnerships with WADA, International Federations, National and Regional Anti-Doping Organizations, KSOC, KPC, the Association of Korean Medicine, The Korean Society of Sports Medicine, the Korean Alliance for Health, Physical Education, Recreation, and Dance and Seoul YMCA, etc.

Lastly, as a NADO representing Asia, KADA will endeavor to become a respectful anti-doping organization that is clean and transparent with expertise so that all Athletes, Coaches, Parents and Athlete support personnel can play fair in clean sports environment.

Thank you.

JIN, Young Soo

## DOPING CONTROL OFFICERS (DCOs)

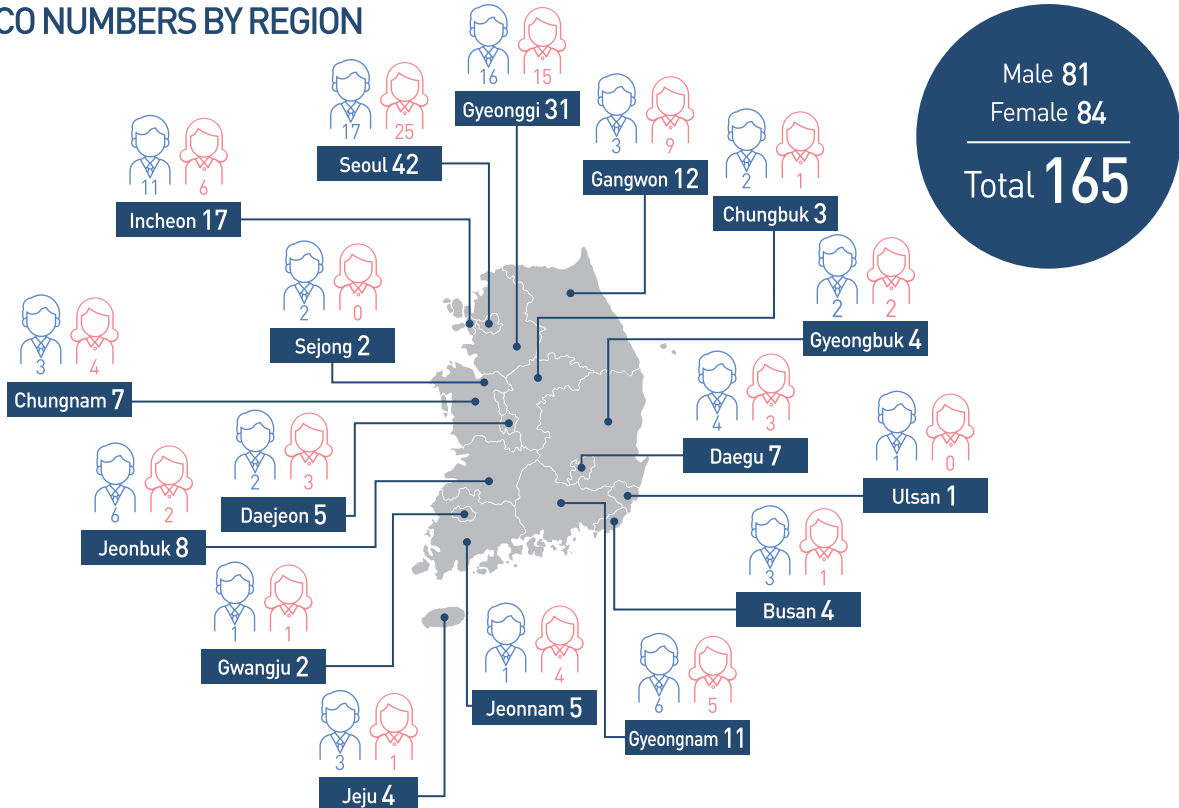

DCOs are also the key element which consist of KADA. They have to go through a strict recruiting process, hard trainings, interactive seminars and comprehensive assessment for re-accreditation. KADA gradually increases the number of opportunities for DCOs to participate at the international sporting events held overseas as international DCOs. In 2017, KADA has successfully conducted doping control programs with 165 DCOs in total.

### 2017 DCO CAPACITY-BUILDING TRAINING

KADA performed the 'Capacity-Building Training' on 2 Dec and 9 Dec for 147 DCOs. The training included the sample collection process, guideline to complete the Doping Control Form, and case study on frequently occurring errors, etc. During the training, the group discussions and presentations were conducted and two special lectures on the sexual harassment prevention and improving customer service were presented. Lastly, KADA and DCOs had a discussion on the development plan of DCO operations.

### ANTI-DOPING PROMOTION VIDEOS AND WEB DRAMAS

KADA produced one promotion video of KADA and three web dramas about anti-doping in order to increase the awareness of anti-doping and to create effective anti-doping education and Outreach program. The web dramas introduces anti-doping mobile applications, doping test procedure and TUE which are useful to Athletes and Athlete support personnel. With a funny plot line, the videos have received good responses from many participants in anti-doping education.

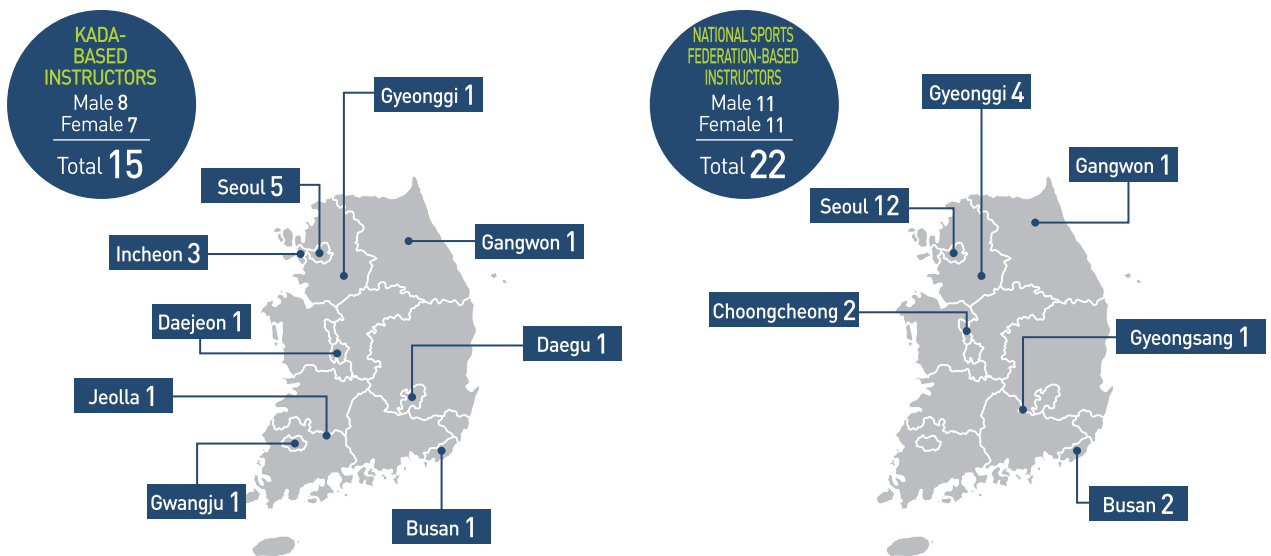

## ANTI-DOPING MOBILE APPLICATION

In January, KADA launched the anti-doping mobile application. Not only the Athletes and Athlete support personnel but also anyone who are interested can search for prohibited substances in sport and download the education materials.

## ANTI-DOPING EDUCATION AND PROMOTION INSTRUCTORS

## 2017 WORKSHOP FOR ANTI-DOPING EDUCATION & PROMOTION INSTRUCTOR

On 29 April, KADA hosted a workshop for anti-doping education and promotion instructors in order to reinforce the educational competency of the instructors and to share the up-to-date information on the anti-doping activities within and outside Korea. At this workshop, special lectures on 'Nutritional Science in Sports' and 'Information regarding Erythropoiesis' were presented, and then extra time was given to increase the professionalism of the lectures by group discussions and evaluations among experts, instructors and Athletes from the university sports teams.

During 16 to 17 Sep, KADA conducted an anti-doping workshop for anti-doping instructors. During the workshop, the lecture regarding the step-by-step educational approach for each characteristic of young Athletes (Under 18), adult Athletes and coaches was presented to respond against the changes in the sports environment and to upgrade the education contents. Moreover, lecture on teaching methods including gallery work, brainstorming, and role-playing, and others were conducted.
